Subject: RE: CSTAG Stakeholder Input & Response

I sent them as is. As I said earlier, we are meeting next week as a follow up to a January meeting and we are going to discuss their CSTAG comments which we have not submitted any written comments on. Your comments coming through right now will aid in our discussions with them.

Diane

Diane:

Will be EPA forwarding them "as is" or will you be commenting on them?

Thanks

Rob

Thanks Rob, I just wanted to make sure you were ok with my sending them to NJDEP. I will send them this version.

Diane:

I've attached a slightly revised version with the comment bubbles removed.

Please use that.

Thanks,
Rob

Are you sharing this with NJDEP? We are planning to meet with them next week to discuss their CSTAG comments.

Subject: CSTAG Stakeholder Input & Response

Diane and Michael:

Attached are the CPG's responses to the NJDEP's February 13, 2018 comments provided as part of the CSTAG Stakeholder process.

As a follow-up to earlier requests, has EPA determined whether it can provide the CPG following:

- NOAA/FWS comments to CSTAG, and
- EPA Region 2's "11 Sediment Principles" Memorandum to CSTAG

Also the CPG would like to have a better understanding of the NJDEP's statement in Comment 3: *"EPA has identified a similar concern and possible path forward for development of site-specific remedial goals for an interim remedy"*.

Please contact me with any comments or questions and if EPA requires any additional information from the CPG.

Thank you.
